**Security Council Committee established pursuant to
resolution [1718 \(2006\)](#)****Note verbale dated 17 August 2017 from the Permanent Mission of
Jordan to the United Nations addressed to the Chair of
the Committee**

The Permanent Mission of the Hashemite Kingdom of Jordan to the United Nations presents its compliments to the Chair of the Security Council Committee established pursuant to resolution [1718 \(2006\)](#) and has the honour to provide herewith the national implementation report of Jordan on measures imposed in Security Council resolution [2321 \(2016\)](#) in relation to the Democratic People's Republic of Korea (see annex).

**Annex to the note verbale dated 17 August 2017 from the
Permanent Mission of Jordan to the United Nations addressed to
the Chair of the Committee**

[Original: Arabic]

**Implementation by Jordan of Security Council resolution
2321 (2016)**

Jordan complies with international resolutions and domestic laws on the control of hazardous materials and on exports to and imports from States included on terrorism or sanctions lists.

In coordination with the Arab and International Police Department, the names of those individuals who are subject to travel bans imposed pursuant to Security Council resolutions on the Democratic People's Republic of Korea are circulated in order to prevent them from entering the country.

Jordan cooperates and coordinates with the General Secretariat of the International Criminal Police Organization (INTERPOL) to follow up on periodic bulletins concerning explosives and chemical substances and the attempts by certain States, including the Democratic People's Republic of Korea, to smuggle such items.

The National Committee for the Prohibition of Chemical Weapons contributes to the work of technical committees in order to control the substances that appear in the lists issued by the Organisation for the Prohibition of Chemical Weapons.

The Ministry of Industry and Trade and the Ministry of Foreign Affairs work with the European Union to control the movement of prohibited and dual-use materials contained in the European Union list of controlled substances. Such controls include the monitoring of commercial activities of various types (import, export and transport).
