- The European Union had already introduced the complete prohibition of the export of all refined petroleum products in Council Decision (CFSP) 2017/1860, which also provided that the export of refined petroleum products could be authorized by the competent authority of a member State for humanitarian purposes under the conditions stated in paragraph 14 of Security Council resolution [2375 \(2017\)](#). In Council Decision (CFSP) 2018/293 it was further stated that the amount of refined petroleum products authorized for export could not exceed 500,000 barrels per year, including by means of pipelines, rail lines or vehicles.

The above-mentioned Council regulations are binding in their entirety and directly applicable in all States members of the European Union. In accordance with Council Regulation (EU) 2017/1509, member States are required to lay down the rules on penalties applicable to infringements of the regulation.

The penalties determined by the Republic of Cyprus are set out in Law No. 58(I)/2016 on the implementation of the provisions of Security Council resolutions or decisions (sanctions) and European Union Council decisions and regulations (restrictive measures).

It should be noted that Law No. 58(I)/2016 also sets out the obligation of any person or entity in the Republic of Cyprus to abide by and comply with all the provisions of Security Council resolutions and/or European Union Council decisions and regulations. Under the law, all United Nations and European Union instruments are incorporated and adopted into the national legal order without the need to enact prohibition orders, and thus are automatically applicable and binding.

It should be noted that the export of military equipment is controlled by Council Common Position 2008/944/CFSP of 8 December 2008 defining common rules governing the control of exports of military technology and equipment and by Regulation No. 522/2011, which was published in the Official Gazette of the Republic of Cyprus (No. 4538) on 23 December 2011.

According to Regulation 522/2011, the export, re-export and transport of military equipment require an export licence issued by the licencing authority. Additionally, the provision of brokering services and technical assistance related to military equipment also requires a licence.

The Republic of Cyprus, as a member of the European Union, the United Nations and the Organization for Security and Cooperation in Europe, applies the policies and measures adopted by these organizations. More specifically, the Republic of Cyprus applies the decisions adopted by the Council of the European Union in the framework of the Common Foreign and Security Policy and Security Council resolutions on the prohibition of exports of military equipment and dual use goods (imposition of an embargo).
